FCST-CR120-TTR Port Cover

The fiber optic raceway port cover is a closing component installed at the end or an open section of the raceway. Its primary functions are to prevent optical cables from sliding out and to smooth the port edges; simultaneously, it provides physical protection against the ingress of dust and foreign objects, as well as accidental injury from contact, thereby ensuring the integrity and safety of the raceway system.

- Sealed against dust; blocks foreign objects.
- Easy to install and remove; highly adaptable.
- Compliant with the UL94-V0 fire safety standard.
- Secures position; prevents cables from dislodging or becoming disorganized.

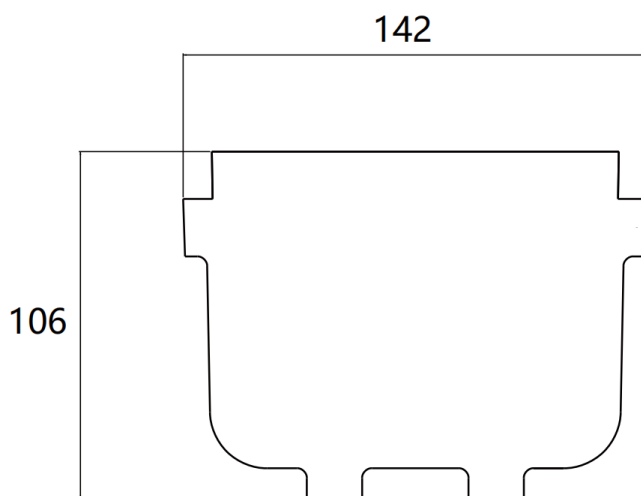

Product Specifications

Construction	Description
Material	ABS
Flame-retardant Rating	V0
Packaging	360PCS/CNT 14.4KG
Weight	40g

Product Structure

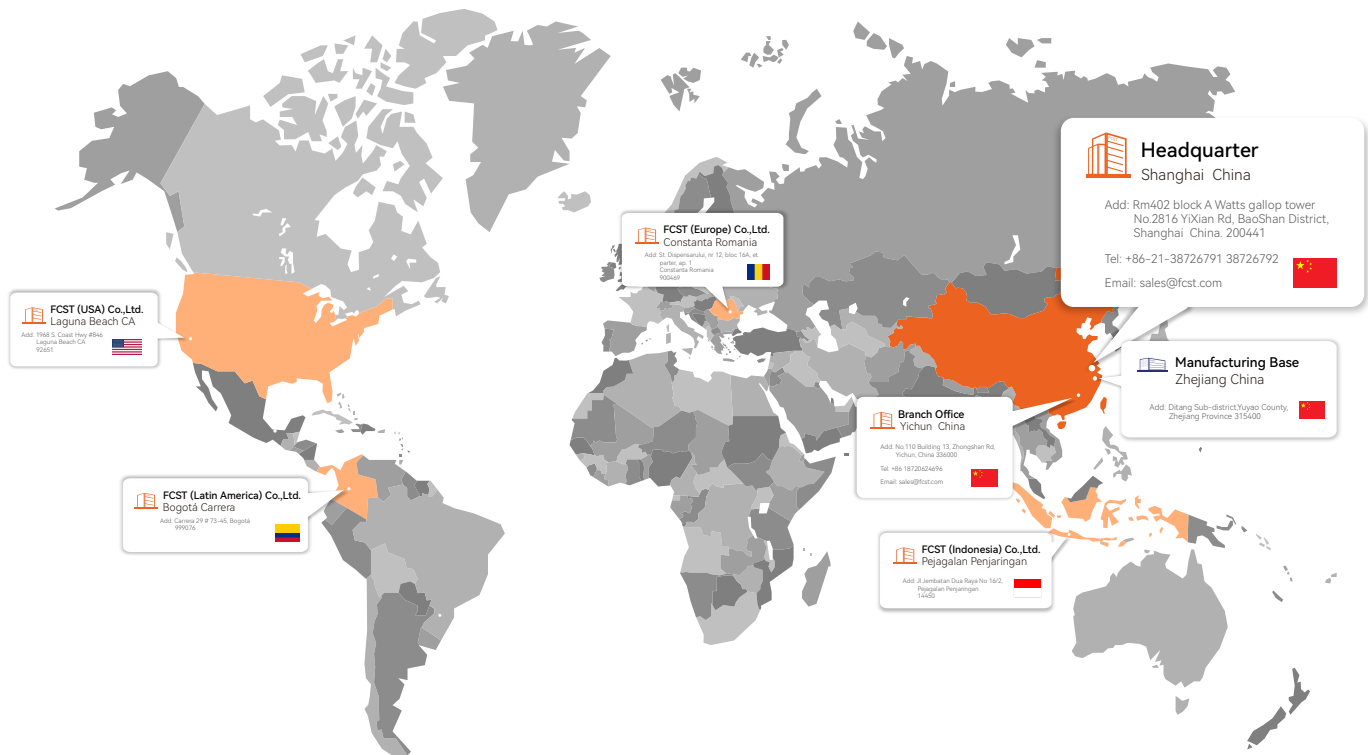

Unit:mm

Better FTTx, Better Life.

Fiber Cable Solution Technology Co.,Ltd.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
